REPORT ON “HACKFINITY - 2025 “

AY-2024-2025

Type Of Technical Activity		Hackathon	
Details Of Academic activity		“HACKFINITY - 2025“	
Name Of The Coordinators		Prof Amruth V Prof Sangeetha G Prof Dharmaraj K B	
Venue			
Date	Duration	9 th May 2025 and 10 th May 2025	24hr

The “**HACKFINITY-2025**” hackathon was conducted to encourage innovation, teamwork, and creative problem-solving among students and tech enthusiasts. The event served as a platform for participants to design, develop, and pitch technical solutions to real-world problems within a limited time frame

Objective of the Event:

"HACKFINITY 2025"– A **24-hour** hackathon organized was a grand success, with **105** teams (4 members each) participating from across Karnataka, including Belgaum, Mandya, Bangalore, Dharwad, and Shimoga.

Special thanks to **ComedKares**, the Innovation Hub, and Mysore-based tech companies for their support in evaluation and winner selection.

The even Encouraged participants to brainstorm and build innovative solutions to real-world challenges using technology. It Provided a hands-on environment where participants can apply

theoretical knowledge to develop functional prototypes which Bridge the gap between academic learning and industry expectations by solving domain-specific problems with guidance from mentors and experts. It included Enabling individuals or teams to analyze problems critically and create effective, feasible solutions under time constraints by providing a platform for students, professionals, mentors, and sponsors to connect, collaborate, and share knowledge which established a vibrant tech culture that encouraged continuous learning and technological experimentation.
